NEW INFORMATION:
RootEd Registration
Burke GEAR UP in the News

RootEd Registration

This year we will be opening registration up to all districts for our Challenge Based Learning cohort known as RootED.

For more information regarding the cohort and how to register, click the document on the right. Please share this file with interested parties at your convenience.

For anyone who has questions or requires additional information, please contact Doug Thompson (thompsondm2@appstate.edu).

WHAT IS ROOTED?

RootED is a teacher professional development partnership between Appalachian GEAR UP and Constructive Learning Design. RootED is designed to engage teachers in the Challenge Based Learning framework, where we encourage teachers and students to explore community challenges as a method for addressing content standards and developing employability skills.

This year we are opening up registration, so new participants are welcome to join!

JOIN THE CHALLENGE BASED LEARNING COHORT!

If you have an interest in CBL and would like to participate in the RootED project for the 20-21 school year please let us know! This link also contains information regarding the time commitment of the project. If you have any questions regarding RootED, please contact Doug Thompson.
Burke GEAR UP in the News

GEAR UP Coordinators Kim Logan and Jessica Stockham were featured in a recent segment of QCTV Live on WBTV to talk about GEAR UP programming in Burke County during COVID-19. Check them out by clicking the image below, and be sure to keep us posted on all the good work you all are doing in your districts, as well!

Marketing & Communications Files

Do you need anything in our GEAR UP Resource Folder personalized? Do you want us to create something similar in your district? We can tweak any resource to fit the needs of your district, and we encourage you to brainstorm any ideas of how our resources can serve your needs! Districts may use any of the resources from this folder at any time. If a district wants to make any edits to an existing item in the folder, they will need to complete the Resource Request form. We will continually add items to this folder, so be sure to check back often. If you would like App State to print a resource in the folder, please allow 30 days for printing and delivery of the materials. Contact Elyssee Gibson (gibsonse@appstate.edu) with any questions.

We are actively working to create additional 7th year programming materials to add to the folder.

Have Suggestions?

We love to hear your ideas! Do you have suggestions that will help us improve? At any time, please provide your feedback by clicking the button on the left. Thanks for taking the time to help us continuously grow and improve.
