Poverty Simulation Workshop can open people's eyes to the human cost of poverty. The power of this week is compressed into a 15-minute simulation. Afterwards in the debriefing, they share insights generated from their own experiences. Each simulation, not a game. Participants enter the workshop with a new identity and family profile. The workshop offers an opportunity to learn more about the realities of living in conditions of poverty. It is a unique learning resource that it creates, like no other method, an insight into the state of chronic poverty.

Please join us for the Poverty Simulation Workshop on 11/20/17. It is a role-playing experience that provides a unique opportunity to understand the challenges of living in poverty from another perspective. The workshop is designed to help participants develop a deeper understanding of the issues faced by low-income families and the systemic barriers that prevent them from achieving economic stability.

Have Suggestions?
Please let us know if you have any suggestions for improving the Poverty Simulation Workshop. We would love to hear your ideas! Do you have suggestions that will help us improve? At any time, please visit our website and provide your feedback by clicking the suggestion box. Thanks for taking the time to help us continuously grow and improve.
